PIANO RECITAL

There will be a piano recital, by the students of this department at the Graded school, tomorrow, (Friday) afternoon at 2:30 o'clock. The public is cordially invited to attend these exercises.

SMALL FIRE.

Last Friday evening about six o'clock the house occupied by Mr. H. H. Northcott, caught fire from a defective flue and was almost totally destroyed in a few moments. Practically everything was saved, except a silver watch, which was either dropped in the snow or was consumed. The fire department responded quickly.

CHAUTAUQUA MEETING.

A meeting of the Chautauqua guarantors is called to meet at the rooms of the Woman's Club, on Friday afternoon, February 1st, at two o'clock. This is a very important meeting, and it may mean money in the pockets of those guarantors, so all are asked to be on hand at the time mentioned above.

BALLARD MAKING GOOD.

J. Hagan Ballard, chairman of the House Committee on the University of Kentucky, is a former student of the college of mechanical and electrical engineering, University of Kentucky. He started in the University academy and later entered the University proper. After leaving college he went to his old home in Hyattsville and is now the representative from Garrard county and one of the youngest men in the legislature, being only 28 years old. —Hannville Messenger.

HANDSOME HOME

Of the number of handsome residences erected in Lancaster within the past few months, the one of Mr. W. H. Mason is still in course of construction. This in an unfinished state it reflects much credit upon the advising architect, Mr. W. S. Vandaleem of Danville, it being a wonderful transformation of the property, years ago known as the Price place on Stanford street. The house has charming features and with its look of serene hospitality is a type admirably adapted to suburban living.

COASTING PARTIES.

For the past two weeks, from seventy-five to one hundred people, both young and old, have been enjoying the coasting on the hill down Danville street, every conceivable thing being converted into a sled. Until the last snow Monday night, the track was fast, very fast, and numerous records were broken, but no legs. Several "bob-sleds" have been made that carry comfortably from ten to a dozen persons, that take you down the hill at a mile a minute clip, but— you have to walk back and pull the sled.

"PURITAN" AT AUCTION.

Mr. W. O. King, the proprietor of the up-to-date ice cream parlor and restaurant, having volunteered for service with Uncle Sam, is advertising his place of business to be sold to the highest bidder next Monday at 2 o'clock by the United Realty and Development Company.

FIRE DESTROYS RESIDENCE.

The handsome country residence of Mr. A. J. Rice, near Marksbury, was destroyed by fire shortly after noon last Monday, caused from a defective flue over the kitchen stove. Little of the contents were saved owing to the great headway the fire had before being discovered. Mr. Rice was in Lancaster at the time, but Mrs. Rice's parents, Mr. and Mrs. Carmon were at the home and with the assistance of near neighbors succeeded in saving most of the furniture on the first floor. The total loss is about \$5,000 with about \$2,000 insurance.

This property was insured by E. C. Gaines the hustling insurance man and only necessary to say full settlement is forthcoming.

GARRARD BOY

On U. S. S. Michigan When Cage Mast Falls.

When dispatches announced the accident of the U. S. S. Michigan last Thursday, when the cage mast fell, killing six seamen, only a few here knew that a Lancaster boy, Rice Terrell was on that ship, together with five Madison county boys. Later reports say that all these escaped injury. The Madison members of the crew were, Cecil Simmons, nephew of Mrs. Lula Johnson, of this city, Evan McCord, Del Azbell, John W. McCord and Andrew McCord.

SERVICE FLAG.

To Be Unveiled At Christian Church.

A program of unusual interest has been arranged for next Sunday morning at the Christian church Sunday school, at which time a Service Flag, donated to the church and Sunday school by Mrs. W. A. Price will be unfurled and placed on the wall of the church. This flag will bear a star for every member of the church that has been called to the colors of Uncle Sam and under or near the flag the names of each member will be enrolled. Stars will be added from time to time as the boys are called out for service. The public is cordially invited to attend this service, which promises to be both impressive and instructive.

NARROW ESCAPE

Mrs. Treadway Caught On Tressel By Train.

Mrs. G. M. Treadway, of Paint Lick, had the narrowest escape of her life in Paint Lick yesterday afternoon, when she attempted to cross the railroad bridge and was caught by an approaching train. When she saw there was no means of escaping, except by jumping, she had presence enough of mind to lie down, but in some way was not then able to escape, for it seemed that from her statements the steps of each car seemed to strike her and finally was knocked off the bridge and fell a distance of about fifteen feet below.

The train backed up immediately and passengers and crew went to her assistance and she was carried to the home of Mr. Burchel where upon examination it was found that she had sustained a broken shoulder blade and otherwise considerably bruised but not seriously hurt.

The escape of Mrs. Treadway was remarkable and her many friends throughout the county will be glad to know that she is not dangerously hurt.

HEMP GROWERS

Hold Important Meeting And Endorse County Sale Movement.

About 200 farmers attended the meeting of the Garrard County Hemp Growers. The meeting was called to order at 2:30 by County farm agent Rogers who explained the object of the meeting and introduced Mr. John U. Fields, marketing agent U. S. Department of agriculture.

Mr. Fields stated that there were two big problems before the farmer of today. First that of production, and second that of marketing. He said he was interested in the marketing.

In regard to the present hemp crop, Mr. Fields said that the farmer should get a business organization and the entire county go together and sell their crop as one man. The idea is not a hemp pool but a county sale in which the farmer elects a committee of men to receive bids on the entire hemp crop of the county. Mr. Field stated that he had been East to interview the hemp buyers and that the buyers were willing to buy from the farmer provided they could deal with them in a business like way and the farmer would stand behind their shipment. A New York firm told Mr. Field several weeks ago that Kentucky hemp was worth \$16.50 per hundred lbs. for the fiber and \$13.00 for tow. Several other eastern buyers talked very encouraging concerning the present hemp crop and many new types of machinery are being used to manufacture hemp into shirts, carpets, etc.

A committee of five farmers composed of Mr. W. R. Cook, W. B. Burton, J. I. Hamilton, E. C. McWhorter and T. C. Rankin was elected to act as the sales committee for Garrard Co. A census was then taken of the number of acres owned by the hemp growers of the county who would put their hemp thru the county sales and 1813 acres were received.

All farmers of the county are urged to hold their hemp and to discuss with any of the committee the plan for the county sales. Garrard county has about 2,500 acres of hemp and every pound of it urged to go through the county sales.

A Wonderful Furnace!

Heats Through One Register

The Caloric Pipeless Furnace is a revelation in simple, efficient and economical home heating. It has no pipes and but one register. It sends warm air by natural circulation through the whole house, drawing down at the same time the return air through a properly constructed channel to be heated again and restored to the circulation. There is absolutely no heat waste in this method. Just as a living spring constantly pours up fresh cool water so the

PIPELESS CALORIC FURNACE

The Original Patented Pipeless Furnace

is constantly pouring up revitalized warm air. It's as natural as nature itself and very economical of fuel. The Caloric is positively guaranteed to reduce your fuel bill by a third at least, and the double ribbed firepot (500 square inches more radiating surface than other firepots) for five years' solid service.

Why waste heat in long, cold pipes and wall flues? Why not send it directly up where you live and need it? That's common sense and economy. Hundreds of satisfied users say the Caloric is a heating wonder, and you will agree if you install it. Let us show it to you.

REGULATIONS AND REPORT OF THE FEDERAL FUEL COMMITTEE OF GARRARD COUNTY.

We submit the following regulations as a guide to business people for the next nine Mondays:—All places of business are to be closed except drug stores, which can remain open all day for the purpose of selling drugs and medical supplies only. Stores selling food stuff can remain open until 12 o'clock noon but can only sell food stuff and coal oil. Firms selling coal can also remain open. Pool rooms, Theaters and Howling alleys can remain open on Monday but are required to close on Tuesdays. It is permissible at all times on Monday to maintain sufficient heat to prevent injury to the building or its contents. The closing order does not apply to banks, churches or schools, county, State, Municipal or Federal offices or dentists and doctors but to all other offices.

We are indeed glad that the first "Heatless Day" so far as we know observed by every business firm in Garrard county and we so reported to the State Federal Fuel Administrator and we people are willing to save coal so that ships may take supplies to our soldiers across the waters.

We have with the co-operation of the local coal dealers and splendid assistance of Mr. W. B. Brann Federal Fuel Admr. for Kentucky been able in a measure to keep the people supplied with coal and we are going to continue to do our very best to keep coal coming into our county every week. We however ask all persons to economize

In the use of coal so far as the weather conditions will permit and to use all the wood possible. We still have to let each individual have only a very limited supply of coal and if you have on hand as much as a weeks supply please do not ask the coal dealers to send you any for by doing so someone who is without coal will suffer by your lack of consideration of your neighbors needs.

H. Clay Kauffman, Ch. Fed. Fuel Com. for Garrard Co. J. E. Stormes, and F. P. Frisbie, Committeemen.

THE REGISTER.

The January number of the State Historical Register again presents itself to the public and it is the most interesting journal of the month containing a variety of news in regard to the conditions of the present but never forgetting its real mission in recording many events of the past that have made Kentucky famous. Everyone remembers that celebrated beauty, Sallie Ward Howson, and a sketch of her life with a photo copy of her in her young womanhood occupies a space in this number as well as an interesting article on an old Virginia home whose family was transplanted to Kentucky and also a copy of the famous address of Rev. William Stanley delivered some years ago at a Confederate Reunion.

In this magazine the editor's personality is always felt. "Her Honor And Her Fame", "Shadows", and "Here" are three of her poems that charm the reader by their grace, beauty, and sentiment.

WAR NEWS OF THE WEEK.

The Italian Socialist of Italy are united for war. A stirring manifesto has been issued summoning all to co-operate for national victory.

So far Russia has not been tricked into making a separate peace. The real Russia is democratic at heart as has been seen by her failure to accept Germany's autocratic designs to accept a separate peace. If Russia chooses the Englishman as a friend the world power of Germany is relegated to past. The Allies should continue to lend Russia a helping hand for she needs encouragement and help in her supreme hour of trial.

A Vienna newspaper despairs of victory and says that the war has shown the folly of Teutonic ambitions. Austria is bankrupt and does not dare publish the smallest of her gold reserve in comparison with her enormous notes in circulation. The food question is serious and it is estimated that it costs as much now to run the ordinary home for a day as it did formerly for a week. In consequence of this lack of nutrition

diseases are more prevalent especially tuberculosis and skin diseases. Fuel is also scarce and even hospitals sometimes are not heated.

The war's biggest trick "The Suicide Fleet" which consisted of fourteen wooden ships, with wooden guns, has deceived the Germans in regard to the strength of the British Navy. This has been kept a secret for months but now the Admiralty no longer objects to a publication of the facts. These wooden ships were without a single gun on board. Great logs tapered from the masts represented the guns and it was a great joke on board. They could not have sunk a row boat. These dummies were really an Irish joke and the Celtic port officials were proud of their great success of camouflaging as each dummy represented one of the well known battle ships. This has been the greatest ruse of the war, as they lay within their land locked harbor apparently ready to dash to sea but being very careful to keep to a respectful distance from the enemy ships.

This last week has been one of anxiety among the Allies rather than one of positive military activity. This was caused by the uncertainty of Germany's plans. The British Intelligence Department has learned positively that the Germans have and are still transferring considerable forces and guns from the Russian front to France and Flanders. It cannot be far distant when it is expected that an attack will be made. It is argued that the future length of the war will depend on how fast the Allies can kill the Germans and it is certain this can be done more quickly when they are attacking than under any other conditions. If the Germans make one more great effort on the western front and fail then she has made most her last effort. The French during the past week show great signs of the tension under which they are laboring.

The Italian front remains practically the same. The Germans have the advantage in that their line toward Italy is concave and any allied success will only straighten out this line. There are heavy snowfalls in the Carnae Alps. The snow is three feet deep on the mountain tops while in the valleys it has drifted to fifteen feet. As all of the lines of transportation to the Carnae Alps are thru the mountain passes the transportation problem is becoming more and more difficult to the Teutons. With the situation thus complicated it would seem that the Italian forces have no cause for alarm.

IDLENESS CRIMINAL.

The war is every day bringing out many new drastic laws to meet the demands of the situation. In Maryland a law has been passed whereby all males between the ages of 18 and 50 years of age regardless of wealth and position must have steady employment or else they are fined and put in jail or better still given employment. Maryland has adopted a sort of civil conscription by which the unemployed are required to register and assigned to work either for the state or private employers. This law has been in force since last August and the fear of the penalty imposed has driven a great number of the unemployed into seeking jobs. This is the first piece of legislation of this kind in this country but a report comes from Washington that a bill will be introduced in Congress compelling all able bodied citizens of the United States to be regularly employed.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringsboro, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught. In fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result. Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's, the original and genuine. # 79

MRS. RICHARD T. LOWNDES RESIGNS
 Gives Up Presidency Of Kentucky Federation Of Women's Clubs.

Louisville Times—The resignation of Mrs. Richard Tasker Lowndes, of Danville, as president of the Kentucky Federation of Women's Clubs was accepted at the meeting of the Executive Board of the organization held at The Seibach.

The board members in accepting the resignation passed a resolution asking that Mrs. Lowndes retain the title until the annual convention and appointed Mrs. Martha Baker, of Harrodsburg, as acting president until that time.

The resignation of Miss Minnie Parker Durham, of Danville, as corresponding secretary also was accepted. No one was appointed to fill her office.

SMILEAGE CAMPAIGN
 To Be Launched Here Next Monday.

At a meeting of several citizens of our town at the Citizens Bank last Tuesday afternoon, it was decided to organize a Smileage Campaign and Mr. Adolph Joseph was unanimously elected the chairman of this important work. The plan is to sell "smileage books" containing twenty coupons, entitling the holder to seat tickets at Liberty Theaters, Liberty Tents, and auditoriums under the management of the Commission Training Camp Activities in National Army Campments and National Guard Camps.

These books contain twenty coupons and cost \$1.00 each and the plan is to sell 100 of these books in the city and send them to the boys at the Campments where one permanent Theater has been built in each Campment, with a seating capacity of 3,000 each. The goal set to be reached by the week ending January 28th is \$1,000,000 worth of these smileage books.

Each community is to set as its goal a sum equal to 5 per cent of its population, in which event \$100 should be expected to be raised in the city next Monday.

This is a splendid work and we don't believe anyone will turn down an opportunity to send one of the Garrard county boys a smileage book and enable him to attend the splendid class of entertainment that will be provided for them at these Campments.

AGRICULTURAL SURVEY
 Of County Asked By Government.

Our County Superintendent, Miss Jennie Higgins, has instructions thru State Superintendent, V. O. Gilbert, to have an Agricultural Survey made of Garrard county, the work to begin January 24th and to be concluded by January 28th. This work is intended to be done mainly through the school children of the county, but owing to the extreme weather we are having just now, most of the schools in the county can hardly be reached and an extension of time may be asked that the work, which the Government has asked to be done should be done more thorough.

We know that this is important work at this time or the government would not ask it and we urge the co-operation of all the farmers in the county to assist in every way, to make it a success. One of the main and important reasons for this survey, is to see just what farm help is to be needed in the county and what effect the Selective Draft has had upon this class of labor.

The work is purely a voluntary, patriotic service and the reward is the consciousness of doing your part to "make the world safe for Democracy".

JUDGE HARRIS BUSY.

For the first few days of Judge E. W. Harris' administration as Police Judge, he was kept quite busy, trying the offenders that Marshal Herron was rounding up for him, but during the past week business in his line has been quite dull, so he informs us.

Judge Harris is not an amateur by any means on the bench, for he served in this capacity several years, with credit to himself and with much honor to the city. He makes the way of the transgressor hard and it is probably for this reason, that business in his court is so dull.

TAG YOUR SHOVEL.

January 30th, has been set aside as the day for the "Tag Your Shovel" campaign and Fuel Administrator H. Clay Kauffman, is going to see that it is put across. This will not cost the consumer one cent, but having a tag put on your shovel is only to remind you that the coal situation is very acute and Uncle Sam needs that shovel of coal and he wants to remind you with this tag, that you should try and save one shovel of coal for that day. There are about three thousand families in Garrard county and think if each family should save just one shovel of coal for that day, what a saving it would be.

Every one that owns a coal shovel should see that it is tagged and when the tag man comes around, give him a hearty welcome and show him your shovel, read the warning on the tag and help win this war for the sake of humanity.

I. O. O. F MEETING NIGHT CHANGED.

Beginning Friday night, February 1st, all meetings of Franklin Lodge No. 7, will be held on Friday night instead of Monday night, as has been the case for several years. The change is made to conserve coal, as the room is occupied during Friday, by the local Red Cross, and is already heated for the evening sessions. Please all members bear this in mind and notify other brothers.

MORE DELINQUENTS

Who Failed To Return Questionnaires.

The local exemption board have almost completed the work of classification and in a few days will begin the examination of those placed in the first class. Final classification cards are also being sent out, these are the ones that have been passed on by the District Board and finally placed the registrant in the class to which he has been assigned. These are smaller cards than those sent out by the Local Board and it is important that each registrant preserve these cards just as he did the original card that was given him when he registered last June. The following have failed to return their questionnaires and are liable to arrest: Lee R. Ladford, Paint Lick; James E. Kirtley, Lancaster; Kinnaird Dorton, Lancaster; Charles Ison, Buena Vista; Tom Lee, Crab Orchard; Leonard Hammonds, Paint Lick; Arthur Cook, Col. Lancaster; Chas. F. Davis, Buena Vista; Josiah Crank, Lancaster; Stephen A. House, Buena Vista; William Robinson, Paint Lick; Charles C. Eppes, Pineville; Arthur Duncan, Col. Battle Creek, Mich, 562 Main Street; Charlie Lowery, Bryantsville.

OUT WITH THIS NOTE.

The Courier-Journal recently referred to some severe criticisms by the Murray Ledger of the Rev. H. Boyce Taylor, moderator of the Kentucky Baptist Association, and a few days later it published some resolutions by the First Baptist church of Richmond, Ky., repudiating this man. The Courier-Journal at the time of its publication of the Murray paper's denunciation, ignorant of the facts on which it was based, expressed no opinion as to its justness. Since then its ignorance has been partially dispelled and the quotations from Taylor's own paper, which it was enabled to publish recently, amply warrant everything which has been said against this man by those who impregnate his royalty and patriotism. These quotations reveal him as a contemptible little bigot and silly fool who has persistently used his position in a great church to instigate treason against the country that shelters him and to which he professes allegiance. The most charitable explanation of his conduct is to assume that he hasn't sense enough to realize its gravity. That, however, is no reason for failure by the proper authorities to put a stop to it. The Courier-Journal understands that he is under surveillance by the Government; he ought to be under duress by the Government. And he ought to be kicked out of the ministry by the church whose cloak he uses to ply his infamous campaign against his country.—Courier-Journal.

RED BLOOD AMERICANISM IS COMING TO THE FRONT

Right now this Country is calling for men of stout hearts and moral bodies. It needs them to keep Old Glory triumphant and unshaken in the war.

The emergency now confronting us emphasizes, as nothing else could, the importance of good health, both as an individual and national asset.

It gives point to the suggestion, often emanating from this office, that everybody should guard their health as a priceless possession. When you find yourself running down and not exactly keyed up to the fighting pitch, as is the case with everybody at times, you ought to come to Nature's relief and take a course of

BUILD NOW!

Buying lumber at this time is the best investment you ever made. There are several very good reasons.

Unusual conditions make it possible to get twice as much lumber as you did in 1914 for the same amount of farm produce.

Investment in lumber and the placing of new buildings on your property will increase its value out of all proportion to the lumber cost.

Lumber—the world's greatest building material—has advanced much less than any other material used for building.

Double value can be had without sacrificing quality—and the lumber of today is better than ever before.

Nothing is more important than conservation at this time, and all grain, stock and implements must be properly sheltered.

Opportunity—such as you have NOW—may never come again. After the war, lumber prices may be higher.

We are giving you this information in the right spirit—with a desire to see you buy when you can get more for your farm produce.

This Is Our Winter of Test

SERVING food is a local problem for early continuity. Prices and definite rules for every one cannot be formulated. It is a duty for each one to eat only as much as is necessary to maintain the human body healthy and strong. This winter of 1918 is the period when it is to be tested here in America whether our people are capable of voluntary individual sacrifice to save the world. That is the purpose of the organization of the United States Food Administration—by voluntary effort to provide the food that the world needs.

U. S. FOOD ADMINISTRATION

NEED BIG HERDS

Europe's Meat Supply Must Come From America.

Warring Nations Have Depleted Live Stock at Enormous Rate, Even Killing Dairy Cattle For Food.

American stock breeders are being asked to conserve their flocks and herds in order to meet Europe's tremendous demands for meats during the war and probably for many years afterward.

The United States food administration reports that American stock raisers have shown a disposition to co-operate with the government in increasing the nation's supply of live stock.

Germany today is probably better supplied with live stock than any other European nation. When the German armies made their big advance into France and then retreated virtually all the cattle in the invaded territory—approximately 1,500,000 head—were driven behind the German lines.

It is in England—where 2,400,000 acres of pasture lands have been turned into grain fields—the cattle herds are decreasing rapidly. One of the reasons apparently is the declining maximum price scale adopted by the English as follows: For September, \$17.70 per 100 pounds; October, \$17.28; November and December, \$16.08; January, \$14.40. The effect of these prices was to drive beef animals on the market as soon as possible.

In France the number of cattle as well as the quality have shown an enormous decline during the war. Where France had 14,807,000 head of cattle in 1913, she now has only 12,341,000, a decrease of 16.4 per cent. And France is today producing only one gallon of milk compared to two and one-half gallons before the war.

Denmark and Holland have been forced to sacrifice dairy herds for beef because of the lack of necessary feed.

Close study of the European meat situation has convinced the Food Administration that the future problem of America lies largely in the production of meat producing animals and dairy products rather than in the production of cereals for export when the war will have ceased.

BRITISH GOVERNMENT HELPS PAY FOR BREAD

There has been much misunderstanding about the bread program in England. It is true that the Englishman buys a loaf of bread for less than an American can, but it is poorer bread, and the British government is paying \$200,000,000 a year toward the cost of it.

All the grain grown in Great Britain is taken over by the government at an arbitrary price and the imported wheat purchased on the markets at the prevailing market price. This is turned over to the mills by the government at a price that allows the adulterated war bread loaf of four pounds to sell at 18 cents, the two pound loaf at 9 cents and the one pound loaf at 5 cents.

In France, under conditions somewhat similar, but with a larger extraction, the four pound loaf sells for 16 cents.

MAKING MEATLESS DAYS PERMANENT.

In the meatless menu there is a fertile field for developing new and nourishing dishes, according to E. H. Niles, writing in the Hotel Gazette, who believes that the present shortage of meat and fats will not end with the coming of peace, but may grow more acute and continue for five or six years, thus making it worth while to develop menus of grains, vegetables and fish on a more or less permanent basis. Meat can be replaced by cereals and other protein foods, or may be served in very small portions as a flavoring for other food. In making up meatless menus this author finds our American Creole and southern cuisine a broad field for investigation.

THE RED CROSS.

There is still more yarn. Come and help knit for the soldiers who are braving the winter in the trenches for you.

The work of this chapter bears the distinction of having all their boxes marked perfect at the headquarters in Cleveland. This is highly gratifying to those in charge as well as all who are interested, for necessarily the rules are strict.

The local chapter of the Red Cross which meets every Friday is doing splendid work in proportion as it has widened and increased its membership and great interest is being manifested by all who attend. There is room for more workers and your co-operation is earnestly solicited.

Those who have taken the yarn with a view of making socks will please bear in mind that it is required to make the length of the foot 11 inches and the length of the leg 14 inches. It is also required that these socks be knit on large needles in order that they may be loosely woven and run stretch. These directions have been given before but some have failed to meet the requirements and their work in consequence has to be taken out and knit over. Be sure your work is right before it is passed in.

BRYANTSVILLE

Mr. N. H. Cheatham continues very low.

Miss Ella Isaac was the guest of relatives at Lancaster last week.

Hay, corn, oats, feed, rye and barley. Hudson, Hughes & Farnau.

The stores were closed here Monday, adhering to the order of the "Fuel Administrator".

Mr. and Mrs. Martin Brogle attended the funeral of Mr. Robert Brogle, at Nicholasville, Saturday.

Mr. L. W. Brooks of Lexington has been spending several days with his brother, Mr. H. G. Brooks.

Mr. Ernest Ballard has returned to Chicago, after a two weeks stay with his mother, Mrs. F. R. Ballard.

Mr. R. M. Moss and family expect to move to a few days to their home at Oak Orchard which Mr. Moss recently purchased. We regret very much to give up Mr. Moss and family.

Hoo. J. Hogan Ballard came up from Frankfort for the week-end. Mrs. Ballard returned with him for a several days visit at Frankfort. Representative Ballard was named on several very important committees.

PAINT LICK

Mrs. Wm. Metraff went to Louisville Tuesday.

Mrs. George Coon who has been quite sick for several days is some better.

Mrs. James Coyle of Berea was the guest of Mrs. Thos. Logsdon Saturday.

Miss Elizabeth Eldridge is at home this week on account of an attack of grippe.

Miss Sadie Ralston returned from school Tuesday suffering from the measles.

Mr. and Mrs. Wm. Gaffney went to Cincinnati to make their home with their daughter.

Mrs. H. J. Patrick and children and Miss Ethel Estridge were the pleasant guests at dinner Tuesday, of Mrs. Harry McWhorter.

Word was received here of the serious illness of Dr. N. Mays of Richmond. On account of his extreme age he is not expected to recover.

Mr. and Mrs. A. G. Botner were guests of Mr. and Mrs. J. D. Burroughs. Mr. Botner will return to Ravenox, Mrs. Botner will remain for a visit.

Messrs Claude and Clarence, and Misses Minnie and Maud Conn from near Lancaster, spent Saturday and Sunday with their grandmother, Mrs. Sarah Rurker.

Ten members of the Red Cross chapter met with Mrs. Rice Woods, Tuesday. Much work was accomplished. During the inclement weather the meetings will continue to be at Mrs. Woods on Tuesdays. Too much cannot be said about the loyalty and enthusiasm and the quality of the work being done is excellent.

AMERICAN FORCES Six Times As Large As In Spanish War.

There were 1,428,650 enlisted men and 119,865 officers in the United States Army at the opening of 1918, more than one and a half times as large as any force ever before mobilized by this Nation, according to a statement by Secretary of War Baker.

During the war with Spain the Army of the United States at its maximum strength aggregated 272,000 men and officers. The Army in the field and in training now is practically six times as great as the maximum number under arms in the Spanish American War.

About 45,000 officers were commissioned from civil life in the two series of training camps, nearly eight times as many as the number of officers in the Regular Army April 1, 1917.

COLOR OF CORD On Hat Denotes Branch Of Service.

Just as the sleeve chevrons and bars, stars, and eagles on the shoulder proclaim ranking officers, the hat cord denotes the branch of service each private has entered.

Light blue signifies infantry; scarlet, Artillery; yellow, Cavalry; buff, Quartermasters Corps; scarlet and white, Signal Corps; scarlet and black, Ordnance; black and white, field clerk; maroon, Medical Corps; black and gold, officers; silver and black, adjutant general's clerk; green, instructor Home Guards; green and white, Home Guards. These cords are worn only on service hats.

Cadet aviators wear as hat bands inch and a half white ribbons and on each collar insignia representing the aviation branch of the Signal Corps, propeller blades.

PATRIOTIC LECTURE.

Professor Charles A. Keith, head of the History department of the State Normal at Richmond, Ky., will speak at the court house next Monday night on the subject, "America and The War."

Professor Keith comes under the auspices of the Liberty Service League and a good crowd should greet this eminent speaker next Monday night. Prof. Keith is said to be one of the best posted men on history in America today, winning a Rhodes scholarship several years ago and graduating at Oxford University, England. He has spent a great deal of his time in Europe and his lecture next Monday night should be both instructive and interesting. The lecture will be free and no collection will be taken.

KEEP YOUR LIBERTY BONDS.

The Liberty Bond is a government bond--as good a bond as the government has ever issued. Just as safe. Just as reliable.

Don't forget this. Nor that in all its history, the government has never defaulted one of its bonds. There is no better security on earth. It is as good as a greenback, so far as its safety is concerned.

It pays you four per cent. interest annually, just as much as you can get for your greenback at any savings bank. And its face value will never shrink.

There have been times when government bonds went below par, just as in recent months Liberty Bonds have sold below par. But there was never any valid reason why they should have done so.

And they never stayed there so very long at a time.

Since the war of 1812 there has never been an issue of United States bonds that failed to go above par. Some dropped below for a time but they always rose again.

Five per cent bonds due in 1895 sold at 127 in 1893.

Six per cent bonds due in 1881 sold at 123 in 1873.

Four per cent bonds due in 1907 sold at 130 in 1889.

Another four per cent issue due in 1925 sold at 131 in 1901.

Two per cent bonds due in 1930 went to \$109.

And the day is coming when these Liberty Bonds will sell above par. Where the Government bonds went below par there was always just one reason. Someone needed money quickly. In order to get it bonds were offered on the market for whatever price they would bring. This happened usually in tight money periods. With normal conditions they went back to normal values.

Loss is impossible upon a government bond investment. Back of these bonds are all the wealth of the nation, something more than \$250,000,000,000. Every dollar of this wealth can be taxed by the Government for the redemption of its bonds.

So long as there is a United States its bonds will be the best investment on earth. No other country is so rich; no other has such security back of its bonds.

Don't sell your Liberty Bonds. Keep them. You will be rewarded by having the price equal and exceed what you paid for them.
